

## Food and Beverages

Food and bottled water/juices are only to be consumed during the first 15 minutes of class, with the instructor's permission, in areas without computers, equipment or carpeting. The Student Commons is closed during class time. Instructor must accompany any students to the Student Commons if breaks are granted.

### Campus Vending Machines

Highline School District has developed Nutrition Standards and PSSC adheres to the policy.. These guidelines apply to all foods sold or provided by Highline School District staff in schools during the regular day.

- Regular, diet, and caffeine-free soft drinks will not be sold or provide on campus.
- Snacks, sweets, cereal bars, breakfast bars, and snack bars must meet certain requirements in portion size, sugar and fat content.

Specific information on the new nutrition standards can be found on Highline School District web site, [www.hsd401.org/departments/](http://www.hsd401.org/departments/). Go to Nutrition Services for the documents. Copies can also be obtained from the main office.

Puget Sound Skills Center is working with the vending machine companies to provide healthier snacks and beverages.

**The office can't refund any money lost in the vending machines per district guidelines. Use them at your own risk. The office and restaurant can't dispense change.**
