

### Evaluating a Webpage:

What is the URL?  If long, what is the TOP LEVEL DOMAIN?
Who created the site? Person?  Group?  Corporation?
When was it created/updated?  Has it been recently updated?
What kind of bias is observed? Pro an issue? Con an issue? Stereotypes? Strong opinions? Persuasive tone?
Are there facts or references to support the page's topic?  What kind?
Who sponsors the page? Government agency? Corporation? NGO? Non-profit?
Who is the targeted audience?
What links are on this page?  Do the links provide more information about the topic?
Is the information easy to find?  Does it look well edited and professional?  Is the page "busy" or "flashy"?  Are there distractions on the page?
Is the information useful for your research?  Can you trust this information to be accurate and credible?
