Period 5/6 personal statement

In Bahir dar, a city which is found in Ethiopia, if a man wants to get married, he tries to find the best woman that he can spend the rest of his life with. Then he finds the woman that he wants to marry and starts a life with her. They have fun together and after nine months she gets pregnant. They have more fun, too. They get me. This was my mama and dad. Here I come. My name is Mahlet. I was born on June 21, 1994.

I started school when I was three. I liked my school. It was called Brhatesfa. I spent a cool and unforgettable time with my friends. I remember during lunch time we had to sleep, but I hate sleeping because I didn't like sleeping the day time therefore teacher were angry with me. I learned there for three years because of my school. I know how to write and read. I believe I got my basic knowledge there. Then I go to Bahir dar Academy School. I studied physics, biology, math, civics, chemistry and sports. I got several friends and I got important facts that can help me in the future, Such as the basic chemistry and physics knowledge.

I got from my school what I like most: my true girlfriends, Ekram and Kalkidan. These are my best friends. They used to live in Addis Abbeba. Then they came to Bahir dar, we become friends. I have been friends for three years with Ekram and two years with Kalkidan. As friends, we love and respect each other so much. We had many fun together, we studied, played and

ate... together. But after two years Kalkidan came to America with her mom. When she left, Ekram and I felt so alone, we missed her so much. We wrote e-mail to tell each other what is going on. Ekram and I have been good friends until I came here. It was so cool to have a friend like Ekram. I loved her so much and now I miss her so much. I think she is alone now because me and kalkidan left her now. She likes Hannah Montana's "True Friend" music. I think of Ekram when I listen to Hannah's music. I remember she sang this song to me some time. I like it. We write e-mails to each other. I get Kalkidan by phone after I came here. I am so happy when I hear her voice. This is all about the friendships in my life.

Because of everything in Ethiopia, like my mom and dad and friends and culture, I am respectful, hopeful, and responsible.

Because of my country, I am respectful. I respect older people. I help them by if they cannot hold something, I hold it for them. I do what they tell me to do. I ask them before
